Supported browsers and devices

Technical Issues · https://www.meolea.com/help/technical-issues/supported-browsers-and-devices/

Meolea is a web-based platform and works on most modern devices with an up-to-date browser.

For the best experience, we recommend using the latest version of a supported browser.

Supported browsers

Meolea supports the current and recent versions of:

- **Google Chrome**
- **Mozilla Firefox**
- **Microsoft Edge**
- **Apple Safari**

Older browser versions may still work but are not officially supported.

For security and performance reasons, we recommend keeping your browser up to date.

Not supported

Meolea does not support:

- Internet Explorer
- Very outdated browser versions
- Browsers with JavaScript disabled

Certain features may not function properly if your browser is outdated.

Supported devices

You can use Meolea on:

- Desktop computers
- Laptops
- Tablets
- Modern smartphones

The platform is responsive and adapts to different screen sizes.

For complex tasks such as managing larger inventories or writing longer texts, a desktop or laptop may provide a more comfortable experience.

Do I need to install an app?

No.

Meolea runs directly in your browser. You do not need to install any software.

What if something doesn’t work?

If you experience display or performance issues:

1. Make sure your browser is up to date
2. Try clearing your browser cache
3. Disable browser extensions that may interfere
4. Try a different supported browser

If problems persist, please contact support and include:

- Your device type
- Your browser name and version
- A short description of the issue
